

3 Courses

Introduction to Computer Vision

Machine Learning for Computer Vision

Object Tracking and Motion Detection with Computer Vision

Oct 31, 2024

ahmet sezgin

has successfully completed the online, non-credit Specialization

Computer Vision for Engineering and Science

This specialization provides the background to analyze, design, and build systems using images or videos using MATLAB and represents the most in-demand career skills for employers across technical fields when working in computer vision.

MathWorks Training

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
